PROFILE

An enthusiastic Computer Science graduate seeking a Graduate / Junior developer opportunity to further develop expertise and positively contribute towards a company's success.

EMPLOYMENT HISTORY

Incident Manager, CET UK
Derbyshire, UK
Apr 2019 — Mar 2020

- Managed emergency home claims for UK insurers such as Direct Line Group, Royal Sun Alliance, DAS and Liverpool Victoria.
- Maintained a strong attention to detail and organisation to ensure the claims process was processed correctly and efficiently.
- Adapted communication style to suit each policy holder, liaised between customers and emergency engineers. Ensured details were written up and documented clearly.
- Operated within small and large teams, encouraging myself and others to produce our best work. The job was target driven so maintaining motivation was essential to consistently achieve targets.

Work Shadowing, NHS Trust
Leicestershire, UK

- Experienced software engineering methodologies in action and the software development life cycle of current healthcare systems such as the NHS mobile app.
- Attended Scrum meetings which provided valuable experience of agile software development processes.

Customer Assistant, Tesco
Leicestershire, UK
Jul 2016 — Feb 2019

EDUCATION

MSc Computer Science, University of Birmingham
Birmingham, UK
Sep 2019 — Sep 2020

- Software Workshop (Java Programming).
- Data Structures and Algorithms.
- Databases (PostgreSQL and Relational Algebra).
- Fundamentals of Software Engineering.
- Introduction to Artificial Intelligence.
- Operating Systems and Networks.
- Human-Computer Interaction.

BSc Psychology, Birmingham City University

Birmingham, UK

Sep 2015 — Jun 2018
